implantistexpo.com

Dear Participants and Guests ,İMPLANTDER welcomes you with an elite (a distinguished) organization in it's 6th anniversary.

Our Association, which is the only one non-governmental organization in the field of dental implantation in our country, is proud to announce that it will host Prof. Dr. Dennis Tarnow , who is one of the leading dentistry and periodontology specialists of the world, this event will be held on April 12th, 2019 with you.

Prof. Dr. Tarnow will share his wide experience interactively in the fields of " Immediate and Delayed Socket Management" and "Multidisciplinary Treatment in Complicated Cases" during our scientific day at Istanbul Pullman Hotel Congress Center.

In addition to our scientific activity, we also invite you to visit the stands of our sponsors' companies in the 1.800m² İMPLANTISTEXPO foyer area and see the innovations of the implant sector.

2 Great Organization on the Same Dates ...

You will be able to follow two big organizations at IDEX 2019 Istanbul Dental Equipment and Materials Exhibition which will be held in the same dates with our İMPLANTIST-EXPO 2019 exhibition and scientific event.

We are looking forward to seeing you in our Implantology day in Istanbul on April 12th 2019

OĞUZ AKYÜZ

İMPLANDER Chairman of the Board

ONE DAY UPON IMPLANTOLOGY WITH DR. DENNIS TARNOW

Dennis P. Tarnow is currently Clinical Professor of Periodontology and Director of Implant Education at Columbia School of Dental Medicine.

He is the former Professor and Chairman of the Department of Periodontology and Implant Dentistry at New York University College of Dentistry. Dr. Tarnow has a certificate in Periodontics and Prosthodontics and is a Diplomat of the American Board of Periodontology.

He is a recipient of the Master Clinician Award from the American Academy of Periodontology, Teacher of the Year Award from New York University and Distinguished Lecturer Award from the American College of Prosthodontists in 2015.

Dr. Tarnow has a private practice in New York City, and has been honored with a wing named after him at New York University College of Dentistry. He has published over one hundred seventy-five articles on perio-prosthodontics and implant dentistry and has coauthored three textbooks including one titled Aesthetic Restorative Dentistry.

Dr. Tarnow has lectured extensively in the United States and internationally in over forty-five countries.

SCIENTIFIC PROGRAM

Immediate vs. Delayed Socket Management What we know, what we think we know, and what we don't know...

Multidisciplinary management of esthetic problem cases.

The ultimate test of our knowledge and skills

08.30 - 09.00 REGISTRATION

09.00 - 09.30 OPENING CEREMONY (AUDITORIUM)

09.30 - 11.00 Dr. Dennis P. Tarnow DDS

Immediate vs. Delayed Socket Management

Immediate placements of implants into extraction sockets is an exciting treatment alternative for our patients. However, there are many potential short and particularly long term risks which the practitioner must be fully aware of. This presentation will focus on the potential problems and benefits both clinically and biologically when the choice of immediate socket placement is made for single and multiple sites.

- Identify what type of healing takes place against the implant in immediate socket placement
- how to minimize recession with immediate provisionalization
- the proper crown contour for immediate provisionals
- if the gap distance really matters?

11.00 - 11.30 COFFEE BREAK

11.30 - 13.00 Dr. Dennis P. Tarnow DDS

What we know, what we think we know, and what we don't know...

- if primary closure should be attempted or should it be left open?
- if membranes should be utilized?
- what type of graft material if any should be utilized?
- what are the potential short and long term risks involved with immediate placement of implants?

13.00 - 14.00 LUNCH

14.00 - 15.30 Dr. Dennis P. Tarnow, DDS

Multidisciplinary management of esthetic problem cases.

The treatment planning of complex cases requires the highest level of knowledge and skill of the treating team. It is an orchestration of procedures including proper sequencing and timing that makes the difference. An envisionment of the final case before starting is required to know where the goal of treatment will be directed. This, in conjunction with the patients needs and clinical situation comprise the decision-making process for what is the best treatment for the patient. Problems facing the team such as:

- Which teeth to save or extract?
- Should implants be placed immediately or in a delayed protocol?
- Should multiple implants be placed in the aesthetic zone?
- When and how to include orthodontics if needed for sight development

15.30 - 16.00 COFFEE BREAK

16.00 - 17.00 Dr. Dennis P. Tarnow, DDS

The ultimate test of our knowledge and skills

- Should pink ceramic be used or should ridge augmentation be performed?
- Should the case be splinted or broken up into separate bridges or individual teeth?
- How to provisionalize the case throughout treatment
- When to immediate load cases versus do a serial extraction case

17.00-17.30 Q & A SESSION

INFORMATION

PLACE OF SCIENTIFIC MEETING AND EXHIBITION

Pullman Istanbul Airport Hotel and Convention Center
Yenibosna Merkez Mah. 1. Asena Sk. No: 15
Bagcilar Istanbul-Turkey

LOCATION

Ataturk Airport 5 min.
CNR Fairgrounds 5 min.
Tüyap Exhibition Area 17 min.
Sabiha Gokcen Airport 50 min.

LANGUAGE OF THE CONFERENCE

The conference will be in English and there will be simultaneous translation to Turkish.

Registration Fee: 750 TL + VAT

Services Included in the Registration Fee:

Full day conference participation, buffet lunch and coffee breaks,
certificate of participation, entrance to the foyer area
